

Jeremiah Daniels

Software Engineer

681-549-9085 | jedaniels3933@gmail.com | [LinkedIn/](#) | [Github](#)

Full stack software engineer with a strong focus on front-end design, combining experience in AI-driven applications and interactive game development using Pygame and the Godot Engine. Proven ability to implement modern tech stacks, including React, Vite, TypeScript, and Python, while integrating tools like Auth0, Tailwind, and shadcn/ui to build scalable, user-focused solutions. Brings creative problem-solving, a deep understanding of UI/UX principles, and a collaborative mindset to fast-paced, innovation-driven teams.

Skills

Languages: Python, JavaScript, HTML and Typescript

Frameworks/Libraries: Bootstrap, Node.js, React, PyTorch, Tailwind, CSS

Databases: MySQL

Tools/DevOps: Github

Certifications: Python, JavaScript, HTML, CSS, MySQL and Typescript

Projects

AURA Image Generator (JavaScript, Typescript, HTML, CSS, React, openai, AUTH0, bootstrap, Tailwind) [[AURA Image Generator](#)]

- Developed a front page using node.js and openai to create an image generator that was used as the backbone of the project
- Solved the most challenging puzzle we faced in working with the open ai API and writing the code to make it work.

Pandora NFT (JavaScript, Typescript, HTML, CSS, React, AUTH0, bootstrap, Tailwind)

- Using canva created a detailed wireframe of the project
- Working currently to turn this site into a global auction site for NFTs and other trading currencies

Cabin Portfolio (HTML, CSS, JavaScript, Node.js, Postman, JSON, Tiled)

- Used Javascript for the animations and functionality of the website.
- Updated with HTML5 and CSS for general layouts and appearance.

Flappyish Bird (Python, PyGame, PyTorch)

- Created a Flappy Bird clone with another developer
- Learning this new library and engine is what I love to do.

Alien Invasion (Python, PyGame, PyTorch)

- Designed my own version of Space Invaders with some help from another developer
 - Discovered my love of making games while making this game
-

Relevant Experience

Software Engineer Apprenticeship: Coding Temple | Remote

October/2025 - January/2025

- Developed AI Gen App
- Worked on a team
- Created a react app

Software Engineer Apprenticeship: Pandora Inc. | Remote

February/2025 - Present

- Created detailed Figma wireframe of complex project
 - Worked with the backend to help flesh out the site
 - Site is going to use Montreal Ai and an auction style for NFTs and Crypto
-

Experience

Software Engineer - Coding Temple | Remote 02/2024 -February 2025

React.js, Node.js, React Native, Bootstrap, Javascript, Typescript, Python, Flask, Firebase, Postman, Insomnia, SQLAlchemy, NoSQL, HTML, CSS, PostgreSQL, VS Code, dBeaver, Vercel, Git, Github, Json

- Developed responsive web applications using **React.js** and **Bootstrap**, enhancing user experience and interface responsiveness across various devices.
- Implemented backend services with **Node.js** and **Flask** to create robust APIs, ensuring seamless data flow and integration. - Utilized **Firebase** and **PostgreSQL** for efficient data storage and retrieval, optimizing application performance and scalability.
- Leveraged **SQLAlchemy** and **NoSQL** databases to manage complex datasets, ensuring data integrity and accessibility.
- Created mobile applications with **React Native**, expanding the reach of web applications to mobile platforms. - Wrote and maintained clean, efficient code in **JavaScript**, **Typescript**, and **Python**, adhering to best practices and coding standards.
- Deployed applications using **Vercel**, ensuring quick and reliable web hosting and deployment. - Conducted code reviews and version control management using **Git** and **GitHub**, facilitating team collaboration and code quality.
- Designed and implemented RESTful APIs using **Flask** and **JSON**, enabling secure and efficient data exchange between client and server

Education

Coding Temple, Certificate of Completion

(February 2024 - June 2024) -

Graduated with over 100% for exceeding expectations on every assignment.
